DINING AT THE AERIAL, BVI

OUR CULINARY ETHOS

Our promise to you: If it's here, it's good for you.

At The Aerial, BVI, our culinary ethos centers on healing and elevating our guests through thoughtfully prepared meals. Emphasizing a pescatarian-forward menu, we source ingredients locally from our on-island gardens or nearby Caribbean suppliers to ensure optimal freshness and nutrient preservation.

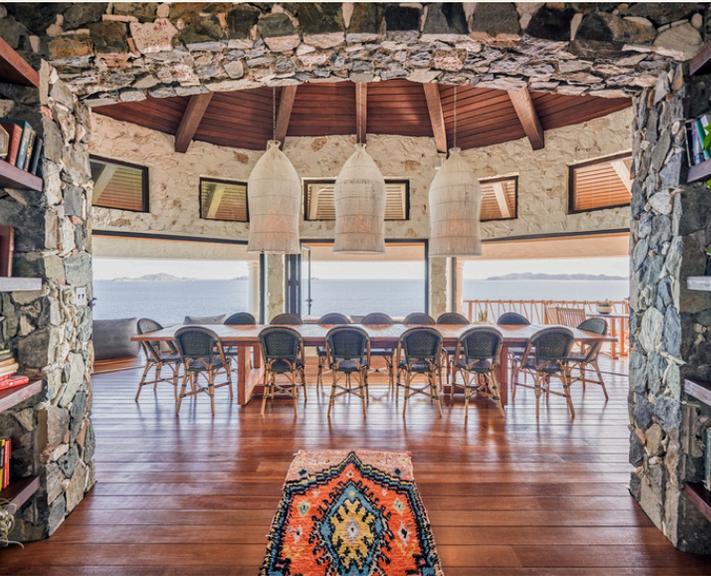

Our 'Island Farmacy' provides fresh fruits, vegetables, and herbs for our dishes daily, embodying our commitment to sustainable, farm-to-table dining.

For resort buyouts, your personal concierge will work with you prior to your stay to craft a customized menu that aligns with your dietary needs and preferences. From accommodating allergies and wellness goals to sourcing the freshest local ingredients, we ensure every meal is both nourishing and tailored to your tastes. Whether you seek clean, energizing meals or indulgent chef-crafted dishes, your dining experience will be seamless, personalized, and unforgettable.

By eliminating refined sugars, preservatives, and artificial colorings, we offer a new way of eating that allows guests to think, feel, and create at their best, fostering a profound connection to the planet.
